The ACEP Guide to Completing ABEM MOC PI Activities, Module 3: Preventing Medication Errors

Date of Release: April 21, 2015
Expiration Date: April 20, 2018

Learner Objectives

On completion of this activity, you should be able to:

- Describe factors contributing to the increase risk of medication errors for patients seen in the ED
- Discuss one of the most common medication errors in pediatrics which is the dangerous 10-fold dosing errors
- Incorporate into practice strategies to identify opportunities to reduce medication errors in patients
- Implement specific programs and practices addressing common sources for medication errors and adverse drug events

CME Statements

The American College of Emergency Physicians is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American College of Emergency Physicians designates this enduring material for a maximum of 2 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Approved by the American College of Emergency Physicians for a maximum of 2 hours of ACEP Category I credit.
